and
Nathalie Morasch
NIETZSCHE SCHOLARSHIP IN ENGLISH, 1993-2005
A BIBLIOGRAPHY

Foreword

Nietzsche scholarship published in the English language, which surged dramatically beginning in the late 1960s, has continued to develop at an astonishing rate during the past dozen years. The NANS bibliography for the years 1968-92, compiled by Bryan Hilliard in 1992 (NIETZSCHEANA #2) and its supplement compiled a year later by Hilliard with the assistance of Earl Nitschke (NIETZSCHEANA #3, making good numerous omissions), contained a total of more than 1,900 books, journal articles, and essays in collections, and other publications. If that was remarkable for a mere 25 years, the pace during the past dozen years has been even more so; for as the present sequel shows, more than 1,300 additional Nietzsche-related items in English appeared in just half as long. The impression that the time has already come for a sequel to the original bibliography and supplement thus proved to be right.

Since 1992 more English-language publishers have begun to publish books on Nietzsche; more journals have begun to publish articles on him; and, perhaps even more importantly, as this bibliography shows, significant numbers of new translations of Nietzsche's writings have appeared, published by major university presses as well as by commercial publishing houses. These are all indications both of the staying-power of Nietzsche scholarship and of its attainment of a new level of engagement and maturity. Its vitality is undiminished; and its sophistication, while still uneven, is growing. It is no exaggeration to say that it has become a significant part of the landscape in the history of modern philosophy and its relation to contemporary philosophical inquiry.

This new bibliography is undoubtedly incomplete; but it goes at least a considerable distance toward the goal of providing a comprehensive inventory of the recent Nietzsche literature in English since 1992. Information about items that have been missed will be welcomed, and may be either mailed to the North American Nietzsche Society at its University of Illinois address (see the Copyright notice) or emailed to its current graduate assistant and the primary compiler of the bibliography, Nathalie Morasch (morasch@uiuc.edu). It is conceivable that enough such items will again be identified to warrant the publication of a supplement.

All of us who will find this bibliography informative and useful are greatly indebted both to Ms. Morasch and to Earl Nitschke, whose devotion to the collection of Nietzsche materials and information relating to them approaches the übermenschlich. The project of compiling it was begun by Morasch, greatly aided by Nitschke, and then brought to completion by Morasch. The result is a worthy and valuable successor to its 1992 predecessor, for which gratitude continues to be owed to Bryan Hilliard, for both its inspiration and its execution. (The predecessor bibliography and supplement are not available for sale, but may be obtained as a membership benefit by a "past dues" payment in the amount of $25.)
